Professional Experience

Furation Technology Pvt Ltd (Mumbai)

01/23 - Present

Front End Developer ||||| <https://ruteekj.github.io/portfolio.RJ/>

- Hi, I'm a passionate front-end developer with training experience creating highly optimized, beautiful, and functional websites and applications. My skills include expertise in HTML, CSS, JavaScript, Bootstrap and other front-end technologies, as well as experience with popular frameworks like React js.

Education

Sandip University

06/18 - 03/22

B.tech Aerospace Engineering - CGPA : 7.5

Deogiri College

06/17 - 03/18

Science (PCMG) - 69.95%

Projects

Website Development (Front End Developer)

- Utilized Microsoft Visual Code to create websites utilising the html and CSS coding languages and has an excellent understanding of Java script .I created a website clone of the BBC News top page and calculator and so many highly optimized websites.
- Git link of calculator <https://ruteekj.github.io/calculator/>

Preparation Of Avionic System For Swivel Nozzle (Final Year Project)

06/21 - 03/22

- First, I used catia-v5 to design the swivel nozzle, which included both 2D and 3D design and assembly.
- After the model was finished, I added avionic components like a servo motor (which rotates at an angle between 0° and 180°), an Arduino for control, and a breadboard for power.
- To forecast the flow characteristics of the nozzle, analyse the 3D model of the swivel nozzle in the ansys (CFD) programme.

Work Experience

• WINGS AVIATION (Shastri Group) PUNE

07 july - 09 September

• INTERNSHIP

• Technical knowledge about mig-21 fighter aircraft engine

• Assembling of pushpuk aircraft engine

• Knowledge about aircraft structure and control system.

Certification

- Front-end developer (furation Technology Pvt Ltd. Mumbai) | Robotic, "what after college workshop", Indian Institute of Technology, MUMBAI | Annual Sport function ,SANDIP UNIVERSITY. |

Key Skills

- Proficiency in english & hindi ,marathi | c++|html5, css3, java-script,Bootstrap,react js framework.
